

“It is health that is real wealth and not pieces of gold or silver”

~ Mahatma Gandhi

- Would you like to avoid diseases like diabetes, cancer, Alzheimer’s and heart disease?
- Did you know that cells go through six stages of change towards disease?
- Would you like to know if your cells were moving in the direction of a chronic illness and learn proven dietary and lifestyle strategies to stop disease years before it begins?
- Would you be willing to invest 30 minutes a week to learn about the latest science that can reduce the risk of chronic illness by 90% or more?

**I promise this is exactly
what you’ll get if you listen to:
“Healing Trends
with Doctor Bens” on**

New Topic Every Wednesday at 2PM!

**HEALING TRENDS
WITH DOCTOR BENS**

WHAT PEOPLE ARE SAYING...

1. He (Dr. Bens) is able to explain very complicated issues in a very simple way. He is a magnificent lecturer. It is no exaggeration to say that many of the listeners were just enraptured by him.

~Minister of the Environment, Estonia.

2. Oh, my word, this Dr. Bens was so informative. I think my mouth hung open for most of it with information I had never heard before. Thank you for bringing in such a great speaker.

3. This is by far the best class I have ever attended. It was presented in layman terms, where we all could follow and understand the instructor. Dr. Bens was excellent. I went to hear Dr. Andrew Weil once. He was very good, but at times he lost me. I could follow Dr. Bens throughout the presentation. He was not stingy with his knowledge, very happy to share his knowledge. Thank you.

~Hillsborough County Employee

4. I read your article “Is Functional Medicine Here to Stay?” I request your kind permission to reproduce it in the same way in a local newspaper. I am very keen on introducing Functional Medicine in my country, Sri Lanka. I shall get this published and take it up with our Prime Minister and Minister of Health to get this system introduced in Sri Lanka. Thanking you profusely. Your article is a godsend to me.

~Amal W. Sri Lanka

5. This workshop will change my life forever. I had no idea about what I could be doing in terms of nutrition and nutritional supplements to deal with my depression. Every doctor and nurse in this hospital should attend this workshop.

~Barbara, RN

6. I have to tell you what I took away from your presentation at the executive session Wednesday...may well be the most informative seminar I have ever attended, I once was lost, but now am found. You’ve helped me make the decision to change: incredibly informative. Thank you.

~Vistage Group CEO
